### Phone Bids

**All purchasers intending to bid by telephone must be pre-registered with payment terms approved.**

**No telephone bids from unregistered bidders will be taken on the day.**

**To register please email [mowens-smith@uagroup.co.uk](mailto:mowens-smith@uagroup.co.uk).**

# **NO SMOKING**

**It is an offence to smoke in these premises. This includes the Sale Rings, Exhibition/Show Hall, Concourse and all Pennage Areas.**

**Anyone smoking will be asked to extinguish their smoking material immediately or leave.  
Your help in maintaining a smoke free environment for the benefit of all is appreciated.**

# United Auctions

## Scotland's Leading Livestock Auctioneers

### **Keep Children Safe – Bull Sales**

Every year children are killed during agricultural work activities.

People often believe that farm children understand farm risks, but most children who are injured in agricultural incidents are family members.

Auction Marts like farms are not playgrounds, Children though are naturally curious, and will often get into apparently inaccessible places

Remember that although parents have a particular responsibility to prevent their children straying or trespassing into areas where they may be at risk, all adults working in agriculture – employers, employees, contractors or other visiting workers – MUST take responsibility for the safety of children and young people.

### **To Reduce Risks, we should**

- Prevent children and young people from playing in or around livestock areas. Animals do not need to attack to pose a danger to people
- Provide adult supervision when children come into contact with livestock
- Make sure everyone working in the livestock areas is aware that children may be present.
- Explain that you are authorised to stop work if any children are in the work area and to send them somewhere safe.
- Not allow children out of a vehicle until vehicle is in a safe area and the children can be supervised. Prohibit children from walking across the loading/unloading area and do not enter or allow children to enter the crush zone when reversing vehicle up to loading/unloading ramp. Customers must ensure they supervise their children at all times in loading/unloading area.

### **If in any doubt you should ensure children**

Cannot enter any yard, pen, ring or area occupied by potentially dangerous animals or vehicles

**No children  
allowed in  
pennage  
area**

## CATALOGUE

“L” before the Herd Book number indicates Pedigree Luing Male. “P” indicates Pedigree Luing Female. “A” indicates Appendix “A” Female. “B” indicates Appendix “B” Female. [P] After family name indicates: the animal is polled. All bulls entered have been inspected by the Fieldsman.

### CONDITIONS OF ENTRY

1. The Sale is conducted under the “General Conditions of Sale” which are exhibited in the Market and in accordance with the Regulations as approved by The Luing Cattle Society Limited.
2. Please note: Stock will be sold as they appear in the ring.
3. **All bulls will be subject to the upset price of 2,500gns.**
4. There will be no transfer fee for bulls or heifers bought at official Society Sales.
5. All Luing Cattle Society Sales are conducted under the National Beef Association terms and conditions of sale incorporating bull breeding and female breeding warranties. To cover the cost of the warranty service detailed on the following page, a charge of £4.00 + vat per bull and £2.00 + vat per female will be split equally between purchaser and seller, applied by the Auctioneer at the point of sale.
6. Female due date is only a guide.

The sale will be conducted in Guineas.

### HEALTH INFORMATION

Isle of Luing herd are;

Johnes 1 since 2012. BVD and IBR accredited.

Herd screened for Leptospirosis.

TB clear 2022 (4-year testing)

All stock entered into the sale have been BVD vaccinated with Bovela on the 21<sup>ST</sup> October 2024

## **Breeding Values and what the figures mean - according to Signet.**

### **Beef Value**

The goal of the Beef Value is to 'improve financial returns by improving carcass weight, fat and conformation in line with current commercial carcass pricing structure'.

E.g. a bull with a Beef Value of +20 B is expected to produce calves with £10 more value in terms of carcass weight, fat and conformation than calves sired by a bull with a Beef Value of 0 B.

### **Calving Value**

The Calving Value is designed to be a terminal sire selection tool. Its objective is to 'improve financial returns, by reducing costs associated with difficult calving's and longer gestation length's.' It is calculated using the EBV's for Calving Ease (direct) and Gestation Length, both of which are highly correlated to Birth weight.

The higher the Calving Value the fewer difficulties that should be encountered at calving.

E.g. a bull with a Calving Value of +4 is expected to produce calves that save an average of £2 in calving and gestation length costs compared to calves sired by a bull with a calving value of 0 C.

### **Maternal Value**

The Maternal Value is designed to predict the overall economic value of an animal's genetic ability to produce breeding females. In the female it predicts the overall value of an animal's maternal characteristics. It is calculated using EBV's for Maternal Calving Ease, 200-day milk, Age at first Calving, Longevity and Calving Interval.

E.g. a bull with a Maternal Value of +20 is expected to produce female replacements whose maternal characteristics are worth, on average, £10 more to the herd over their lifetime than females produced by sires with a Maternal Value of 0 V.

## Maternal Production Value

The Maternal Production Value is designed to predict the economic value of an animal in terms of its genetic ability to produce quality females for breeding and beef carcass characteristics. It is calculated using the Calving Value, Beef Value, Maintenance Value (when available to the Luings breed) and Maternal Value.

E.g. a bull with a Production Value of +60 P is expected to produce offspring that, on average, are worth an additional £30 to the herd by merit of their maternal and terminal sire attributes than offspring of a bull with a Production Value of 0 P.

## Myostatin Testing and Sire Verification

### Myostatin.

The bulls forward for sale have all had their DNA taken and checked on the instruction of the Luings society. Any abnormalities for myostatin have reported in the footnotes of each bull.

### Sire verification.

DNA from the bull for sale has been compared with DNA taken from his sire to ensure that the sire mentioned in the pedigree is correct.

## Example of one of the table attached to the bulls.

Beef Value, Calving Value, Maternal Value and Maternal Production figures.

Beef Value +10 (70)	Calving Value -2 (54)	Mat. Value +2 (34)	Mat. Production -6 (44)		
Scrotal Cir.(cm's) 40.5	Bulls Weight 700 Kg	Cow Classification			
Height (inches) 54.5	Feet 10	Udder 10	Temp 10	Age at First Calving 24 mths	Cow Kg
Bulls Frame Score 6.2	Locomotion 10	Teats 10	Condition Score 10	777 Kg	

The Following figures were all gained on the 09/09/2024 by the Luing Society Fieldsman Charles Symons.

Scrotal Circumference – Measurement around the widest circumference of the bulls testicles.  
(Minimum for an approved Luing bulls is 38cm)

Height (inches) – Taken from the shoulder.

Bulls Weight (Kg) – Taken on day of inspection.

Frame Score – Using the height and age of the bull and applying the formula created by the Uniform Beef Improvement Program.

The following data was gain from the fieldsman's observation of the bull's mothers. And Scored 6-10 with anything less than 6 deemed a fail.

The Feet shape, Udder Condition, Teat size and positioning, Her Locomotion, Her Body Condition Score, Temperament and Skeletal Score. She was also weighed on this day.

The age in Months when the cow had her first calf and her yearly calving interval.

**Myostatin copies = 0**

Comet is by a 9 year old cow the same dam as Luing Atlas, he has a quiet, biddable temperament and has been a farm favourite since weaning last year, good maternal figures and is from a strong bull line with good fat cover and calving ease. Both dam and sire are very quiet and easy handled

**Myostatin copies = 0**

Cammy's Dam was away last year so wasn't available for inspection

**Cammy comes from another very easy calving line of bulls and he is from a much smaller framed cow with V17 weighing in at 582kg prior to leaving last year, he is easy handled and respectful of space. Cammy will require remeasuring for height in the spring but I have no doubts that he will reach the 52inch minimum requirement**

# D & J CAMPBELL LTD

*Operating for over 75 years within the agricultural industry and with three generations worth of knowledge and experience, we pride ourselves in being able to provide a reliable and efficient service within the haulage industry*

## **This includes:**

- ✓ Transportation of livestock
- ✓ Suppliers of hay, straw, lime and firewood
- ✓ General haulage - low loader transport
- ✓ Refridgerated transport
- ✓ Hiab hire
