Foreword

The Rockcliffe Luing herd was re-established in 2001, with the acquisition of a couple of small herd dispersal and heifers from the Annual premier sale at Castle Douglas. Stock bulls were used from Cadzow, Benhar, Harehead, Merkland and Buckholm. Growing the herd predominantly through home bred heifers selecting on functionality to an outwintering system and tight calving period. In recent years we have used a number of homebred bulls with bought in bulls from Finlarg, Craigdaroch, Benhar, Milkieston and Culmally. We have calved down at 2 year old since 2018 and all heifers have been pelvic measured since 2012 to assist with selection.

The emphasis has been predominantly on fertility and functionality. Cows are all outwintered on fodder crops, with no concentrate feed needed. Calving outside from the 2nd week in April, a tight calving pattern is maintained with no 2nd chances or passengers. This year we had 60% of the herd calved in the first 3 wees of calving and 85% in the first 6 weeks. All calves have qualified for the Scottish suckler calf scheme this year.

We operate a rotational grazing system through the summer month with large groups of cows. Therefore, mobs are ran with at least 2 bulls to cover all cows, usually a stock bull followed by a younger bull. Therefore, registered sires are not guaranteed. For DNA sire verification contact Steven for other possible sires. All bulls were semen tested before use, all scoring 5/5! The bulls have been out with the cows since the 22nd of June 2025. Using both Pedigree Luing and Simmental bulls, a number of which are also in the catalogue to be sold.

Vaccination

- BVD accredited and vaccinated.
- LEPTO
- Bravoxin
- Bluetongue
 - Bulls and lots 2 – 25 vaccinated with Syvazul on the 21/5/25 and 13/6/25.
 - All other cows vaccinated with Bultavao 3 on the 16/6/25 and 9/7/25.

10 July 2025

RE Herd Johne's History for Mr Murray, West Preston Farm CPH 82/503/0034

The above herd has tested for Johne's in a CHECS testing programme since November 2005. From our HiHealth Herdcare records, the history of the Johne's status and testing of the farm over the last 10 years is given in the table below.

Year	Number of animals tested	Number of blood positive faecal negative results	Johne's status after annual herd test
2015	180	1	Risk level 2
2016	180	0	Risk level 2
2017	176	0	Risk level 1
Jan 2019	150	0	Risk level 1
Oct 2019	182	1	Risk level 1
2020	180	0	Risk level 1
2021	180	0	Risk level 1
2022	Testing performed with PCHS		Risk level 1
2023	202	0	Risk level 1
2024	214	0	Risk level 3

Overall I consider the herd has a very good Johne's track record, and by maintaining a regular testing programme with appropriate management procedures has done everything possible to minimise risks of Johne's over many years. However although Johne's level 1 herds are lower risk for the presence of Johne's they cannot be said to be definitively free of Johne's and unfortunately the herd's most recent test demonstrated this.

In this test one animal gave a persistent low positive blood test result and on faecal testing while inconclusive by PCR was a positive for MAP, the agent that causes Johne's disease, by culture. For this reason under CHECS rules they have to be moved to level 3 status.

With the permission of the Murrays I am happy to answer further questions on the herd testing history to any interested parties.

Viewing of Stock

Pre-sale visits to view the cattle are more than welcome!
Please contact Steven Murray on 07887 788835 to arrange.

Terminology

"L" before the Herd Book number indicates Pedigree Luing Male. "P" indicates Pedigree Luing Female. "A" indicates Appendix "A" Female. "B" indicates Appendix "B" Female. **P/12345*** indicates dam classified, and **L/12345#** indicates that the sire has passed a breed inspection. All bulls entered have been inspected by the Fieldsman. "SV" after the name indicates that the animal has been sire verified by DNA hair sample. All pedigree information is supplied by the breeder and is deemed to be accurate by the Luing Cattle Society, and all responsibility for accuracy of such information lies with the breeder, and not with the Luing Cattle Society. The Luing Cattle Society operates an online registry at breeds.grassroots.co.uk/LUING

Terms and Conditions

1. The Sale is conducted under the "General Conditions of Sale" which are exhibited in the Market and in accordance with the Regulations as approved by The Luing Cattle Society Limited. Animals will be sold under 'Farm Sale Conditions' whereby as much information as possible will be provided but no warranties are wither given or implied. All male calves have been left entire.
2. All lots will be sold in guineas (105p)
3. Levy of 2% to the Luing Cattle Society, will be taken at the point of sale.
4. All animals are the purchasers responsibility from the fall of the hammer.
5. The Terms of Sale are payment on the day unless arrangements have been made between the purchaser and the auctioneers prior to the commencement of the sale. Interest will be charged at 7% over base rate. Strangers must provide a reference from their Bank or local mart 3 days prior to the day of the sale.
6. No animals may leave the premises without and Official Pass obtained from the mart office upon settlement.
7. Animals will be transferred to the new owners free of charge.
8. The Auctioneer is appointed Judge of the Sale. Their decision on all matters shall be final and binding on all parties.
