CONDITIONS OF SALE

1. The Sale is conducted under the “General Conditions of Sale” which are exhibited in the Market and in accordance with the Regulations as approved by The Luig Cattle Society Limited.
2. Please note: Stock will be sold as they appear in the ring. Any prospective buyer wishing to purchase one of a pair must consult the vendor prior to them entering the ring to see if they are prepared to sell them as singles.
3. **All bulls will be subject to the Society’s upset price of 2,000gns.**
4. There will be no transfer fee for bulls or heifers purchased at official Society Sales.
5. All Luig Cattle Society Sales are conducted under the National Beef Association terms and conditions of sale incorporating bull breeding and female breeding warranties. To cover the cost of the warranty service detailed on the following page, a charge of £4.00 + vat per bull and £2.00 + vat per female will be split equally between purchaser and seller, applied by the Auctioneer at the point of sale. Both purchasers and sellers are advised to acquaint themselves with the breeding warranty claim terms. Copies of this warranty are available from the Auctioneers.
6. Levy of 2% to the Luig Cattle Society, will be taken at the point of sale.
7. The sale will be conducted in guineas.

Attention is drawn to the following point:

If it is found impractical to try the female fairly within the time limits stated, due to the purchaser's normal calving programme, the purchaser shall (at the discretion of the vendor), **ON THE DAY OF THE SALE**, or within the next seven days, give the auctioneer notice **in writing** of the month in which it is proposed to commence using the bull/running the heifers with the bull.

Dispersal sales are held under Dispersal rules, which normally don't carry any breeding warranties. Please contact United Auctions for further information on dispersal rules.

Catalogue

The Owner of each Lot is the Breeder unless otherwise stated. "L" before the Herd Book number indicates Pedigree Luig Male. "P" indicates Pedigree Luig Female. "A" indicates Appendix "A" Female. "B" indicates Appendix "B" Female. **P/12345*** indicates dam classified, and **L/12345#** indicates that the sire has passed a breed inspection. Registered Sim-Luings (indicated by "C" before the herd book number) are out of pedigree or A-grade Luig cows, sired by a registered Simmental bull. "SV" after the name indicates that the animal has been sire verified by DNA hair sample. All pedigree information is supplied by the breeder and is deemed to be accurate by the Luig Cattle Society, and all responsibility for accuracy of such information lies with the breeder, and not with the Luig Cattle Society. The Luig Cattle Society operates an online registry at www.breeds.grassroots.co.uk/LUING

Health Information

The Luig Cattle Society was the first to run a BVD-safe sale with its Premier Sale in February 2007. Since 2010 all official Luig Cattle Society Sales, including this one, are run under the same health rules and are therefore BVD-safe. To qualify for this, all stock must come from herds which are members of a CHecs accredited health scheme and are either BVD accredited free or the sale stock have tested negative for the virus, in accordance with the Scottish Government regulation. Additionally, all stock forward are vaccinated against BVD. Information relating to individual herds' health status and vaccination dates are provided in the table in the front of the catalogue. For your convenience the Johnes risk level categories are defined as follows:

Status Level

Risk Level 1	This is directly equivalent to the previous CHeCS Accredited Free status. Level 1 status is associated with the lowest risk source when buying in stock. Health plan required.
Risk Level 2	Herds with level 2 status have had one or two clear consecutive herd tests. Health plan required.
Risk Level 3	Herds with level 3 status have reactors identified at the annual herd test, but these are no more than 3% of animals tested. Health plan required.
Risk Level 4	Herds with level 4 status have reactors identified at the annual herd test, and this amount to more than 3% of the animals tested. Health plan required.
Risk Level 5	Any herd that is not carrying out the required testing or does not have a suitable health plan in place falls into this category. Level 5 status is considered to be the greatest risk source when buying in stock.

Scotland's Leading Livestock Auctioneers

Keep Children Safe – Bull Sales

Every year children are killed during agricultural work activities.

People often believe that farm children understand farm risks, but most children who are injured in agricultural incidents are family members.

Auction Marts like farms are not playgrounds, Children though are naturally curious, and will often get into apparently inaccessible places

Remember that although parents have a particular responsibility to prevent their children straying or trespassing into areas where they may be at risk, all adults working in agriculture – employers, employees, contractors or other visiting workers – **MUST** take responsibility for the safety of children and young people.

To Reduce Risks, we should

- ☐ Prevent children and young people from playing in or around livestock areas. Animals do not need to attack to pose a danger to people
- ☐ Provide adult supervision when children come into contact with livestock
- ☐ Make sure everyone working in the livestock areas is aware that children may be present.
- ☐ Explain that you are authorised to stop work if any children are in the work area and to send them somewhere safe.
- ☐ Not allow children out of a vehicle until vehicle is in a safe area and the children can be supervised. Prohibit children from walking across the loading/unloading area and do not enter or allow children to enter the crush zone when reversing vehicle up to loading/unloading ramp. Customers must ensure they supervise their children at all times in loading/unloading area.

If in any doubt you should ensure children

Cannot enter any yard, pen, ring or area occupied by potentially dangerous animals or vehicles

**No children
allowed in
pennage
area**
